Workshop: Getting Started with the Critical Info Platform Helping You Plan with Peace of Mind

Join us for a practical and empowering workshop designed especially for older Victorians who want to take control of their end-of-life planning – with dignity, and without stress or overwhelm.

In this engaging, step-by-step session, you'll learn how to use the Critical Info Platform to create your very own "end-of-life manual" – a simple, secure and organised way to document your key information, unique wishes, and important paperwork, all in one place.

You don't need to do it alone – **you're welcome to bring a loved one or support person at no additional cost.**

What we'll cover:

- Navigating the platform with confidence.
- What documents matter and where to keep them.
- Best practices for digital & paper storage.
- How to nominate Key Contacts to support you when needed.
- Tips for sharing your wishes with family.
- Exploring and documenting your values and personal history.

Spaces are limited.

Scan the QR code to secure your place or phone: 8595-3033

Discounted price: \$99.50

Includes workshop attendance and your first year of full access to the Critical Info Platform.

Support person attends free.
